

HISTORY

Opened in 1852, the Mont Cervin Palace belongs to one of the historic hotels in Zermatt and holds a leading role in the local tourism. The meaning of tradition also includes the upkeep the modernisation of infrastructure. Back in the days when the hotel started, our clients also found everything was new and up-to-date. Therefore the Mont Cervin Palace remained closed in 2012 for more than 6 months to reopen its gates brand new with a unique and contemporary 5-star comfort combined with traditionally alpine cosiness.
